July 16, 2019

OR

[SB 103](#)

Description:

Classifies dairies exceeding specified size as industrial facilities for purposes of right to farm laws, air pollution laws and land use laws. Provides that use of water for industrial dairy is industrial use. Allows local governments to adopt human health and safety ordinances restricting or prohibiting air and water emissions by dairies classified as industrial facilities. Prohibits Department of Environmental Quality and State Department of Agriculture from issuing permits for construction of new industrial dairy or for addition to, or expansion of, existing industrial dairy.
