The Animal Agriculture Alliance offers internship positions throughout the year. All positions are full-time (40 hours/week) and based in the Alliance’s office located in Arlington, VA near the Courthouse Metro Station.

- Spring: 1 position
- Summer: 2 positions
- Fall: 1 position

**Position Description**

**Title:** Alliance Intern

**Duties:** Assist with social media content production, research of key issues in animal agriculture, media monitoring, legislative tracking, developing reports and member resources and a variety of other projects. Support the Alliance team in executing projects like the annual Stakeholders Summit, College Aggies Online, trade show booths, marketing campaigns and more. Interns function as full-fledged members of the Alliance team and will be asked to contribute at a high level to help us achieve our mission of bridging the communication gap between farm and fork.

**Requirements**

Most importantly, candidates must have a strong interest in and passion for animal agriculture. Excellent written and oral communication skills are also a requirement, along with a strong command of Microsoft Office, the ability to work independently and meet deadlines, and a willingness to work as a team player. Preferred skills include graphic design (or an interest in learning) and a strong grasp of using various social media platforms. The ideal candidate would be a junior or senior-level student pursuing a degree in an agricultural field such as animal science, ag business/economics, ag communications/marketing/journalism, ag education, etc.

**Compensation**

This internship is a paid position. Course credit is also possible.

**How to Apply**

To apply, please complete the [online application form](#) by the appropriate deadline.

- Spring Deadline: November 15
- Summer Deadline: December 15
- Fall Deadline: July 15

**About the Alliance**

The Alliance is a 501(c)(3) non-profit organization that works to bridge the communication gap between farm and fork. The Alliance’s mission is to connect key industry stakeholders to arm them with responses to emerging issues, to engage food chain influencers and promote consumer choice by helping them better understand modern animal agriculture and protect animal agriculture by exposing those who threaten our nation’s food supply with damaging misinformation.
